Statement regarding the war in Ukraine

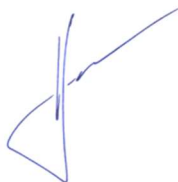

The European Board of Anaesthesiology would like to share its thoughts and admiration for all the anaesthesiologists and other surgical, medical staff and nurses currently dealing with all the victims of the unprecedented situation in the Ukraine.

The reports we hear are very distressing, but we are most impressed by the dedication and heroism that they are demonstrating whilst their own lives are at risk. They are all in our thoughts.

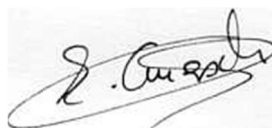

We also commend our colleagues who selflessly open their hearts and provide help in receiving and caring for the countless refugees arriving from the war struck areas. This is the time to live up to our role as inspired humanitarians.

For the European Board of Anaesthesiology

Olegs Sabelnikovs
President

Emilia Guasch
Vice-President

Kresimir Oremus
Secretary

Pinelopi Kouki
